

The NEW Amstel Deluxe D30 is suitable for heights 2400mm - 3100mm and is ideal for those wanting easier access to their ceiling space. With a gentler angle (63°) and a deeper tread (125mm) the Deluxe Range offers a more comfortable climb.

This Australian designed Attic Ladder is packed full of amazing features and benefits. Key features include:

- » **Easy to use** – unique spring system takes the full weight of the attic ladder
- » **Built tough** – Featuring high quality, heavy duty steel hardware
- » **Insulation** lid 30 mm polystyrene insulation with draft seal
- » **10 Year Warranty** for residential use
